### LandMark Non-Pressurized Series

Landmark foam markers with a variety of tank sizes or compatible with your own tank. Includes tubing, harness, Thomas air compressor and SHURflo pump. Approximately 2.5 to 8.25 hours of marking depending on tank size.

Part No.	Description
LM0600	6 gallon poly tank, dual side, air, 2 hrs max
LM1400	14 gallon poly tank, dual side, air, 4 ¼ hr max
LM1600	16 gallon, dual side, air, 4 ¾ hr max
LM16VLSF	16 gallon poly tank, single side, 5 ¼ hr max
LM16VLTA	16 gallon poly tank, single side, truck air, 5 ¼ hr max
LM2500	25 gallon poly tank, dual side, air, 8 ¼ hr max

### VisionWorks Camera System

VisionWorks systems are an affordable and portable solution to the blind spots in grain carts, skid loaders, or any application. To see these systems in action, visit: [visionworkscameras.com](http://visionworkscameras.com)

#### Features:

- 5" (vwic500) or 7" (vwic700) LCD monitor
- Standard 700 TVL Camera - highest resolution in the industry
- Suction cup monitor mount
- Cigarette lighter adapter
- Hard-wiring cables & 30 ft. Cable
- 65 lb. magnet
- Two camera inputs - VWIC700 only

### Top Crop Weed Wipers - No Drift Solution

- Models for Spray Booms, ATV's, Front Buckets, 3 point hitch and pull-type.
- No Drift - Kills taller weeds with wipe on sponge
- Sponges hold more product than carpet, rope, or canvas
- Even distribution of chemical throughout the boom
- Mounting system designed for easy installation and removing without any welding to your boom.
- Use less chemical with great results because you put the chemical right where you need it.
- Kits fit any boom from 5 to 120 feet
